IDENTIFICATION

Product Name:	MatchPlay Vitalise
Other Names:	None allocated
Manufacturer's Product Code:	None Allocated
UN Number:	None Allocated
Dangerous Goods Class and Subsidiary Risk:	None Allocated
Hazchem Code:	None Allocated
Poisons Schedule Number:	Not Scheduled
Use:	MatchPlay Vitalise is a liquid organic fertilizer prepared by the enzymatic digestion at ambient temperature of marine waste with added Humic acid and Seaweed extract.

Physical Description/Properties:

Appearance:	Varies depending on type of marine waste being processed. Dark brown to black, free-flowing suspension with a strong pungent organic odour
Boiling Point:	Not available
Melting Point:	Not available
Vapour Pressure:	Not available
Specific Gravity:	1.07 @ 25°C
pH	5.5-6.5
Flashpoint:	Not available
Flammability Limits:	Not available
Solubility in Water:	Product is a water based suspension

Other Properties:

None Specified

Ingredients:

<u>Chemical Name:</u>	<u>CAS Number</u>	<u>Proportion:</u>
Liquefied Fish Crustacean Silage	Not applicable	Not >50%
Trace Elements	Not Applicable	Not >2.5%
Fulvic acid	Not Applicable	Not >10%
Seaweed Extract	Not Applicable	Not > 2%

PRODUCT: MATCHPLAY VITALISE

HEALTH HAZARD INFORMATION

Health Effects:

Product has no known adverse health effects. However, it is possible that it may cause allergic reactions in people who are sensitized to seafood or who have sensitive skins.

Acute:

Swallowed: No adverse health effects expected.
Eye: None known
Skin: None known
Inhaled: None Known

Chronic:

None known

First Aid:

Swallowed: No treatment normally required
Eye: Irrigate with copious quantities of water for at least 15 minutes.
Seek medical advice.
Skin: Wash skin with soap and water.
Inhaled: Seek medical advice.
First Aid Facilities: Only basic facilities required.

Advice to Doctor: Treat symptomatically

PRECAUTIONS FOR USE

Exposure Standards:

No Threshold Limit Value known

Engineering Controls:

No special ventilation required.

Personal Protection:

Because this product is a protein based material, it is possible that there could be allergic reactions in some people with sensitive skins. It is recommended that the user avoid eye contact and repeated or prolonged skin contact by wearing overalls, chemical goggles and impervious gloves when mixing or applying this product.

Flammability:

This material is a water based suspension which is not flammable.

PRODUCT: MATCHPLAY VITALISE

SAFE HANDLING INFORMATION

Storage and Transport:

Product quality may be compromised by exposure to above-ambient temperatures and ultraviolet light. To preserve product quality, store in a cool place out of direct sunlight.

Not defined as a Dangerous Good by the Australian Code for the Transport of Dangerous Goods by Road and Rail.

Spills and Disposal:

It is advisable to clean up small spills with sand, diatomaceous earth, soda ash, or other absorbent material, since washing fertilizers into waterways may upset nutrient balances. Load absorbent mixture into suitably labelled containers for disposal.

The material collected can be disposed of at an approved local authority landfill site.

Fire/Explosion Hazard:

Product is water based and not flammable.

Extinguishing Medium:

Not applicable

OTHER INFORMATION:

No other information required.
